The screenshot shows the WinSCP interface with two panels. The left panel displays the local file system at C:\Users\randy\Documents, and the right panel displays the remote file system at /home/randey. Both panels show a list of files and folders with columns for Name, Ext, Size, Type, and Changed. The local host shows folders like My Music, My Pictures, and My Videos, along with a desktop.ini file. The remote host shows folders like .cache and .ssh, along with files like .bash_logout, .bashrc, and .profile. The status bar at the bottom indicates the transfer mode is SFTP-3 and the session duration is 0:00:18.

Name	Ext	Size	Type	Changed
Parent directory			Parent directory	12/09/2013 19:29:17
My Music			File folder	28/12/2010 02:42:24
My Pictures			File folder	28/12/2010 02:42:24
My Videos			File folder	28/12/2010 02:42:24
desktop.ini		402 B	Configuration sett...	12/09/2013 19:29:17

Name	Ext	Size	Changed	Rights	Owner
..			18/01/14 21:39:55	rw-r-xr-x	root
.cache			18/01/14 21:53:44	rw-r-----	randy
.ssh			18/01/14 21:46:00	rw-r-----	randy
